Summary

Motivated and adaptable Computer Science undergraduate with hands-on experience in IT support, product management, and full-stack development. Known for a strong work ethic, clear communication, and the ability to learn rapidly in high-paced environments. Proven track record of managing client relations, delivering technical solutions, and supporting cross-functional collaboration. With a diverse background across technology, hospitality, and creative industries, I bring a unique blend of technical skills and interpersonal strengths to dynamic teams.
